Be A Business Mentor

Think back to when you first started out in business.

Can you remember how some days you just didn't know what to do first or who to ask for help. We are trying to solve this by helping new graduate businesses access mentoring support.

So what does it take to be a business mentor?

It requires that you be sincerely interested in someone else's start up business and growth. You won't win any awards, but you will have the satisfaction of having done an important job.

Could you help graduates start up businesses, by offering an hour a week to provide some online mentoring support?
